

Settle and Malhamdale Partnership

Accessibility Plan

Purpose of the Plan

The purpose of this plan is to show how Settle Primary School and Kirkby Malham Primary School intends to ensure the accessibility of our school to disabled pupils and visitors.

Definition of Disability

A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities.

Legal Background

From September 2002, the Disability Discrimination Act 1995 outlaws discrimination by schools and LA`s against either current or prospective disabled pupils in their access to education. It is a requirement that the school`s accessibility plan is resourced, implemented and reviewed and revised as necessary.

This plan sets out the proposals of the Governing Body of the school to increase access to education for disabled pupils in the three areas required by the planning duties in the DDA:

- increasing the extent to which disabled pupils can participate in the school curriculum (this includes teaching and learning and the wider curriculum of the school such as participation in after school clubs, leisure and cultural activities or school visits;
- improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services (this includes improvements to the physical environment of the school and physical aids to access education;
- improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled (this will include planning to make written information that is normally provided by schools to its pupils available to disabled pupils. Examples might include handouts, timetables, textbooks and information about school events. The information should take account the pupils` disabilities and the preferred format for pupils and parents and then to make sure that it is made available within a reasonable timeframe.

Settle and Malhamdale Partnership aims to treat all stakeholders, including pupils, prospective pupils, staff, governors and other members of the school community favourably and, wherever possible, takes reasonable steps to avoid placing anyone at a substantial disadvantage. The school partnership aims to work closely with disabled pupils, their families and any relevant outside agencies in order to remove or minimise any potential barriers to learning, which puts them at a disadvantage, but allows them to learn, achieve and participate fully in school life. The school is active in promoting positive attitudes to disabled people in the school and in planning to increase access to education for all disabled pupils.

As part of the school's continued communication with parents, carers and other stakeholders we continually look at ways to improve accessibility through data collection, questionnaires and parental discussions.

Contextual Information

The site of Settle Primary School has been designed to be disabled friendly and there is easy access to all classrooms/learning spaces within and from outside the school premises and the playground areas are also accessible. There are two disabled toilets.

At Kirkby Malham Primary the main entrance to the school for visitors is up some stairs however there is another route which is routinely used by the children and is accessible for someone in a wheel chair. There are stairs however which limit access at present to Class Two and a ramp or improved access point would be needed to improve access to the school field and/or Forest Area. This has been discussed with the NYCC Landlord Unit when the new laws were first introduced and funding was requested to make minor adjustments to provide a stair lift/improve access points to the field and Forest Area and improve the Forest path.

The Current Range of Disabilities within Settle and Malhamdale Partnership

The school partnership has children with a range of disabilities which include high, moderate and specific learning difficulties. When children enter school with specific disabilities, the school contacts the LA professionals for assessments, support and guidance for the school and parents.

We have a number of children who have asthma and all staff are aware of these children. Inhalers are kept in the classrooms and a record of use is noted.

We have competent First Aiders who hold current First Aid certificates. All medication is kept in a central safe and secure place which has easy access for First Aiders and staff members.

Administration of Medicines consent forms are filled in by parents outlining the illness and amount and time of medication.

All medication that is given is recorded.

Settle and Malhamdale Partnership

Accessibility Plan 2023-2025

Targets	Strategies	Outcome	Timeframe	Achieved
Equality and Inclusion				
To ensure that the Accessibility Plan becomes an annual agenda item at FGB Meetings.	Clerk to Governors to add to list for FGB meetings.	Adherence to legislation.	Annually
